SUBJECT:—*Licensing of Optical, Scientific, Philosophical and Surgical Instruments, Apparatus and Appliances.*

No. 87-ITO(P.N.)/50.—The attention of importers is invited to the entries against sub-item (b) under Serial Nos. 92, 93 and 94 of Part V of the Import Trade Control Schedule in Appendix B to Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950.

2. Now that "Scientific and Surgical Instruments, apparatus and appliances, not made of rubber" have been included in Schedule A attached to Open General Licence No. XX, it has been decided that the quota percentages fixed for imports from the Dollar and Soft Currency Areas under the sub-item mentioned in paragraph 1 above for July-December 1950 should be reduced from 100 per cent. to 75 per cent. of half of best year's imports. The quotas will continue to be based on past imports of all articles falling under the said sub-item, whether included in Open General Licence No. XX or not, but the licences issued against the quotas will be valid only for such goods falling under the sub-item as are not included in Open General Licence No. XX.

3. In respect of other areas the quota percentages already fixed for the said sub-item for July-December 1950 will remain unchanged. Past imports of all goods falling under the said sub-item, whether included in Open General Licence No. XX or not, will be taken into account in calculating the quotas for those areas but the licences issued will cover only such of the goods concerned as are not included in Open General Licence No. XX.

4. The licensing arrangements in respect of the above sub-item for actual users and new-comers for July-December 1950 and those made under the Long Term Licensing Scheme for January-June 1951 will remain unaffected by the publication of Open General Licence No. XX.

No. 88-ITO(P.N.)/50.—Attention is invited to the provisions of Public Notice No. 80-ITC(P.N.)/50, dated 15th June 1950, on the above subject which require that, in respect of each Licensing Area, the basic year chosen by each importer for the calculation of the various quotas admissible to him for imports of different chemicals from that Licensing Area shall be the same.

2. It has now been decided to relax this principle and to permit applicants to choose the basic year which is most favourable to them in respect of each available quota.

3. The following amendments in Public Notice No. 80-ITC(P.N.)/50, dated the 15th June 1950, are therefore made in this behalf:—

Imports and should reach him not later than 28th September 1950.

SUBJECT:—Import of Second-hand or Reconditioned machinery, falling under the Capital Goods Licensing Scheme.

No. 91-ITO(P.N.)/50.—It has been noticed that when applying for Capital Goods licences for the import of Second-hand or Reconditioned Plants, applicants do not generally furnish a certificate regarding the age, present condition and probable unexpired life of such machinery, as laid down in clause No. 24 of the Capital Goods application form, published in Appendix 'J' of Public Notice No. 14-ITC(P.N.)/50, dated the 15th June 1950.
